INVITATION

WELCOME TO THE ATS GROUTING COURSE 2025 SPONSOR PROSPECTUS

Australia is experiencing a boom in tunnelling and dam construction, in many cases related to hydropower and pumped hydro projects. An important technical part in these projects is the control of water flow in rock fractures, either surrounding the tunnels, or beneath the dam foundations.

The Australian Tunnelling Society (ATS) promotes and advances knowledge of the Australian Tunnelling Industry through areas of design, construction, and use of the underground space, including technical aspects, health and safety and environmental considerations.

The ATS, in conjunction with AGS and ANCOLD has put together a one-day course on rock fracture grouting for tunnels and dams.

At the heart of the course is technical content delivered by one of the world's leading experts in grouting, Mohamed El Tani. Mohamed is involved in grouting research through the International Society of Rock Mechanics (ISRM) as President of the ISRM Commission for Rock Grouting. He is also the President of the Lebanon Underground Space Organisation (LAUS).

Speakers at the course include:

- ♦ **Mohamed El Tani** – Managing Director – Rockgro
- ♦ **Bruce Grant** – Managing Director - Multigrout Australia
- ♦ **Iain Robertson** – Managing Director – RIX Ground Engineering
- ♦ **Sean Ladiges** – Technical Director – GHD
- ♦ **Harry Asche** – Design Director – Aurecon

This course is vital for all professionals working in major tunnel and dam construction who need to understand grouting operations. This will include client organisations planning hydro and pumped hydro projects, consultants providing design services, and contractors pricing and constructing.

ATS, AGS and ANCOLD view this event as an important service to the tunnelling and dam professional communities. Australia was once a leader in this field, but this knowledge has faded. Now we propose to bring Australia back up to date, particularly considering the unprecedented need for this skill.

SPONSORSHIP

What's in it for you?

As an event sponsor, your organisation will be visible throughout the event, which will consist of three one day workshops in Melbourne, Sydney and Brisbane on the following dates:

- ♦ Melbourne: Monday, 26 May 2025
- ♦ Sydney: Wednesday, 28 May 2025
- ♦ Brisbane: Thursday, 29 May 2025

Becoming a sponsor is a valuable opportunity to promote your organisation to a qualified audience including a talent-pool of up-and-coming tunnellers, potential clients and partners, and the ATS's almost 11,800 LinkedIn followers, many of whom are international.

By adding your logo to our website and to relevant Grouting Course marketing materials you can reach an even broader audience.

Full details of the available supporting packages are shown in the following pages.

Harry Asche
Chairman, ATS 2025 Grouting Course

LOCAL EVENTS, EXCELLENT PROGRAM

VENUES
